

FINISH CAPABILITIES

Sawyer Fabrication combines first rate facilities and the skill to perform industrial painting, liquid coating, and grit blasting in-house. With a fully qualified staff of professionals, Sawyer can prepare and deliver the perfect finish to your fabricated project. After your project has been cut, burned, heat treated, machined, drilled or welded, we can complete the job with custom steel fabrication painting.

PAINT CAPABILITIES

Application Methods

- Air Atomized Electrostatic Paint Gun
- Conventional Hand Held Paint Gun
- HVLP guns
- Rotary Atomizers

Masking

- Selective Coatings

Coating Characteristics

- Abrasion Resistant
- Color Addition
- Condensation Resistant
- Encapsulation
- Flame Resistant
- High Temperature
- Protective
- UV Resistant

Pre-Coating Preparation

- Coating Removal
- Grit Blasting
- Spray Washing
- Masking
- Degreasing

Application Process

- Spray
- Brush - Roller
- Textured

Paint Color

- Many colors available

Substrate

- Alloys
- Aluminum
- Fiberglass
- Metals
- Plastic
- Steel
- Stainless Steel

BLAST CAPABILITIES

Type of Finishing

- Abrasive Shot Blasting

Services

- Surface Texturing
- Grit Blasting
- Paint Stripping

Removes

- Painting
- Plating
- Powder Coating
- Mill Scale
- Heat Treat Scale
- Rust
- Other Surface Imperfections

Media

- Steel Grit and Shot
- Stainless Steel Shot
- Ceramic Bead
- Glass Bead
- Aluminum Oxide
- Garnet
- Plastic
- Walnut Shell
- Corn Cob

Equipment List - Paint & Blast

- (2) Gallon Potts
- (3) Binks 2100 Spray Gun
- (1) 1/2 Gallon Potts
- (2) 1 Quart Gravity Feed Spray Gun
- (1) 2-Ton Harlington Crane
- (2) Ingersol-Rand Compressors
- (1) Zeks Compressor,
- (1) Manchester Tank - 400 Gallons
